5.3	Finalising a Grouped Return	48

1. Introduction

This document is a guide for users who will be uploading XBRL files to the Central Bank of Ireland via the Online Reporting Platform (ONR). The document will encompass the process of Individual File uploads as well as the Finalising and Sign-Off of both Individual and Grouped Returns.

Screenshots and accompanying text will describe scenarios when the file upload has been both successful and unsuccessful.

Please refer to the latest version of the EBA filing rules document on the [EBA website](#) prior to loading XBRL returns to the ONR. These filing rules represent a collection of additional rules and guidance specifically applicable to the remittance of XBRL reports for reporting entities in scope of relevant EBA regulations (e.g. banks). In particular, please note the new conventions required under Filing Rules 1.6 and 3.6 for XBRL uploads which are summarised below.

EBA Filing Rule updates – Rule 1.6

- **All applicable templates in a module must now include an explicit positive or negative filing indicator.**
- **An omitted indicator will no longer be accepted to signify an omitted template.**
- (a) missingPositiveFilingIndicator: XBRL reports MUST include appropriate positive (i.e. either with @find:filed="true" or without @find:filed attribute) filing indicator elements to express which reporting units ("templates") ARE intended to be reported.
- (b) missingNegativeFilingIndicator: XBRL reports MUST include appropriate negative (i.e. with @find:filed="false") filing indicator elements to express which reporting units ("templates") are intended NOT to be reported

EBA Filing Rule updates – Rule 3.6

Before reference date 31/12/2022 or for the module having _con/_ind in its module name:

```
<xbrli:entity>  
  <xbrli:identifier scheme="http://www.centralbank.ie" >  
    C1234567  
  /xbrli:identifier>  
</xbrli:entity>
```

From reference date 31/12/2022 onwards and for the module without _con/_ind in its module name:

For the highest-level consolidation report:

```
<xbrli:entity>  
  <xbrli:identifier scheme="https://eurofiling.info/eu/rs" >  
    LEIIDENTIFIERABCDEFG.CON
```

```
</xbrli:identifier>  
</xbrli:entity>
```

For the individual report:

```
<xbrli:entity>  
  <xbrli:identifier scheme=" https://eurofiling.info/eu/rs" >  
    LEIIDENTIFIERABCDEFGG.IND  
  </xbrli:identifier>  
</xbrli:entity>
```

***From reference date 31/12/2022 onwards and for the module without _con/_ind in its module name:
For CRD liquidity sub-group reporting (ALMM, LCR DA and NSFR returns):***

```
<xbrli:entity>  
  <xbrli:identifier scheme=" https://eurofiling.info/eu/rs" >  
    LEIIDENTIFIERABCDEFGG.CRDLIQSUBGRP  
  </xbrli:identifier>  
</xbrli:entity>
```

In addition, the current list of applicable validation rules (including XBRL and non-XBRL rules) for each individual taxonomy release is available on the [EBA website](#).

2. XBRL File Load

2.1 Navigation to the File Upload Screen

To upload an XBRL return instance the user will log-on to the ONR system with their normal user details and will be presented with the following Home Page screen.

Banc Ceannais na hÉireann
Central Bank of Ireland
Eurosystem

C999001: CRDIV Test Firm 1

The user must then choose the “Load a File” option from the screen above in order to access the Load File functionality.

8

2.2 Loading an XBRL File

The screen below is used to commence the upload process

The screenshot shows the Central Bank of Ireland Eurosystem interface. The header includes the Central Bank of Ireland logo, the text 'Banc Ceannais na hÉireann Central Bank of Ireland Eurosystem', the user identifier 'C999001: CRDIV Test Firm 1', the user name 'Anshul Arora', and a 'Logout' button. The breadcrumb trail is 'Home > Data > COREP Consolidated OF (Banking) > _load'. The main content area is titled 'Load a COREP Consolidated OF (Banking) File'. It contains a 'File Upload' section on the left with instructions: 'On this page, you can load a File containing 'COREP Consolidated OF (Banking)' data.' Below this are links for 'Guidance Material' and 'Submit a Request'. The main area has a 'Select a file and click 'Load File' to load it to the server:' prompt, a file selection input field, and a 'Browse...' button. Below this, it states: 'The file name must take one of the following format(s): An XBRL document format (.xbrl) or ZIP file (.zip) document named CCCCCC_YYYYMMDD_COREP_CONSOLIDATEDOF-BANKING where CCCCCC is your institution Code and YYYYMMDD is the reporting date'. It then says 'Please note the following: 1) The file must be named according to the naming convention above before being uploaded.' At the bottom are 'Load File' and 'Cancel' buttons. The footer contains copyright information: '© 2013 Central Bank of Ireland | Conditions Of Use | Privacy Statement | Cookie Notice' and a 'Contact Us' link.

The user will select the “Browse” button to locate an XBRL file on their local network and once located they will choose the “Load File” option at the bottom of this screen. This will then kick-off the file validation process (described in Section 3 below)

2.2.1 XBRL File Naming Convention

All XBRL files uploaded will follow a defined naming convention. Filenames must conform to the following naming convention.

“Cnnnnnn_YYYYMMDD_XXXXXXXXXXXXX_XXXXXXXXXXXX.xbrl”

Where

1. Cnnnnnn is the institution code (The 6/7 institution digit code used for logging into ONR)
2. YYYYMMDD is the return reporting date (not submission date) e.g.: 20181231
3. XXXXXXXXXXXXXXXX_XXXXXXXXXXXXX is the CRD IV “Return File name” on the ONR system (see table below).

4. .XBRL is the file extension. This must be either ‘.XBRL’ or ‘.ZIP’

An example of this is as follows:

“C123456_20181231_COREP_ConsolidatedOF-Banking.XBRL”

The full list of CRD IV return file names to be included in the XBRL file name is as follows:

CRD IV Return Type	Return File Name
Liquidity Coverage Ratio Individual (Banking) (Return no longer submitted post 31 August 2016 reporting date)	LCR_Individual-Banking
Liquidity Coverage Ratio Consolidated (Banking) (Return no longer submitted post 31 August 2016 reporting date)	LCR_Consolidated-Banking
Liquidity Coverage Ratio DA Individual (Banking)	LCRDA_Individual
Liquidity Coverage Ratio DA Consolidated (Banking)	LCRDA_Consolidated
COREP Individual and Leverage Ratio (Banking) (Return no longer submitted post 30 September 2018 reporting date)	COREP_Individual-Banking
COREP Consolidated and Leverage Ratio (Banking) (Return no longer submitted post 30 September 2018 reporting date)	COREP_Consolidated-Banking
COREP Consolidated OF (Banking)	COREP_ConsolidatedOF-Banking

G-SII indicators and EBU items (Individual)	GSII_EBUIND
Resolution: MREL Decisions (EBA)	MREL_Decisions
Resolution: MREL/TLAC Consolidated (EBA)	MREL-TLAC_Consolidated
Resolution: MREL/TLAC Individual (EBA)	MREL-TLAC_Individual
Resolution: Notification of Impracticability (EBA)	notif_impracticability

3. XBRL File Validation

3.1 Initial Validation Checks

On receipt of the uploaded file, a number of validation checks are performed as the file is processing. These checks are as follows

- File Size is within permitted levels
- Date of file
- A return instance exists on ONR for the Reporting Date of the file
- File name conforms to the naming convention

3.1.1 File Size Validation

The size of the file being submitted must be within the allowable file size limit of 30MB. If not, the following error message is displayed to the file submitter.

Where the XBRL file is in excess of the 30MB limit the file should be compressed before resubmission

Load a COREP Consolidated and Leverage Ratio Banking File

☐ Delete existing data and replace with this?

Select a file and click 'Load File' to load it to the server:

CRDIV_20140223_COREP_CONSOLIDATED-BANKIN

Error: CRD-FIL-0002: File is too large

Where the XBRL file is in excess of the 30MB limit, the file should be compressed before resubmission.

3.1.2 Validation of File Date

The reporting date contained in the filename on the file being uploaded must not be in the future. If it is, the following error screen is displayed

Select a file and click 'Load File' to load it to the server:

No file selected.

Error: CRD-FIL-0003: Invalid File Name
Return Period date [20140223] must be less than today's date.

3.1.3 Return Instance on ONR

A check needs to be made that the Return instance exists on the ONR system for the “Reporting Date” contained in the file name. If so, the following error message is returned.

File Upload

On this page, you can load a File containing 'Asset Encumbrance Individual (Banking)' data.

[Guidance Material](#)
[Submit a Request](#)

Load a Asset Encumbrance Individual (Banking) File

Select a file and click 'Load File' to load it to the server:

Browse...

Error: XBR-FIL-0003: Invalid File Name

No valid Return exists for this Return Period date [20160930].

The file name must take one of the following format(s):

An XBRL document format (.xbrl) document or ZIP file (.zip) named CCCCCC_YYYYMMDD_AE_Individual-Banking where CCCCCC is your institution Code and YYYYMMDD is the reporting date

Please note the following:

1) The file must be named according to the naming convention above before being uploaded.

Load File

Cancel

3.1.4 File Naming Convention

Check that the XBRL file name is in the correct format. If no the following error screen is returned

Load a COREP Consolidated OF (Banking) File

Select a file and click 'Load File' to load it to the server:

No file chosen

Error: XBR-FIL-0003: Invalid File Name
Instance File Format should be as follows:
An XBRL document format (.xbrl) or ZIP file (.zip) document named
CCCCCCC_YYYYMMDD_COREP_CONSOLIDATEDOF-BANKING
where CCCCCC is your institution Code and YYYYMMDD is the reporting date

The file name must take one of the following format(s):

An XBRL document format (.xbrl) or ZIP file (.zip) document named
CCCCCCC_YYYYMMDD_COREP_CONSOLIDATEDOF-BANKING where CCCCCC is your institution Code
and YYYYMMDD is the reporting date

Please note the following:
1) The file must be named according to the naming convention above before being uploaded.

3.2 Business Card Validation

Validation is also performed on the uploaded file to ascertain whether its content matches the ECB Business Card for this institution of Expected returns for this period.

If the uploaded file does not match the Business Card either one of two errors will be displayed.

Note that from 1 Jan 2023, **ALL** templates must be referenced with a positive or negative filing indicator.

For example, in the COREP OF return, there are 11 separate templates for C34.XX and each of these will require an individual reference in the xbrl file from 2023. Up until Q4 2022, excluding a template reference implied that it was not being reported, however EBA taxonomy 3.2 release now requires a false indicator to be assigned to a template which is not being reported:

Reporting obligation	Positive filing indicator (filing declaration: "Reported")	Negative filing indicator (filing declaration: "Not Reported")
MANDATORY (Always expected or Master data dependent fulfilling conditions)	OK	Error
OPTIONAL/UNDETERMINED (Threshold based or Activity based)	OK	OK
NOT EXPECTED (Always not expected or Master data dependent not fulfilling conditions)	Error	OK
template sent outside normal frequency (e.g. C06.01 in March)	Error	OK
template that does not exist in the module (e.g. C06.01 in FINREP)	Error	Error

From DPM 3.2 filing indicators simplified by removing "missing" option – each template in module should be declared explicitly "positive" or "negative" from calendar date 01/01/2023;

Correct use of filing indicators remains crucial to avoid rejection (error 405). Error 405 indicate:

- Misuse of negative filing indicator: (File Rejected – data partially loaded);
- Non-expected templates: (File Rejected – data partially loaded);
- Module/template mismatch: (File Rejected – severe error, file blocked (will return other error code), no data loaded);

3.2.1 Return Not Expected / Received at Wrong Frequency

If an unexpected return is uploaded or if an instance of an expected return is received at a time interval that is not expected an error screen is displayed to the submitter as outlined below

4. XBRL File Processing

4.1 In-Processing Status

Once the XBRL file has passed the above validations, it will be queued for processing. The length of time it will be queued will depend on the number of institutions uploading and validating XBRL files on the ONR system at the same time but an indicative time for processing will be displayed to the user as outlined below

The screenshot shows a web browser window with the URL http://iecwcbid10806/Home/Data/LGEX_CON/files/142123. The page header includes the Central Bank of Ireland logo and the text "Banc Ceannais na hÉireann Central Bank of Ireland Eurosystem". The main header displays "C333009: CRDIV Test Firm 333009" and the user name "Mark Doyle" with a "Logout" button. The breadcrumb trail is "Home > Data > COREP Large Exposures Consolidated (Banking) Files > #142123". The left sidebar shows "File Upload Status" with the note "This page shows the result of uploading a file." The main content area is titled "COREP Large Exposures Consolidated (Banking) File #142123" and contains the message "C333009_20160930_LE_Consolidated-Banking.xbri is queued and awaiting processing." Below this, a table lists the file details:

Filename:	C333009_20160930_LE_Consolidated-Banking.xbri
Status:	Queued
Estimated Upload Time:	60 seconds
Return Type:	COREP Large Exposures Consolidated (Banking)
Size:	5169 bytes
Uploaded Date:	01-Jun-2017 (10:29)
Processed Date:	N/A

At the bottom of the table are "Back" and "Refresh page" buttons. Below the table are four buttons: "Print current page", "Export Errors", "Collapse all Errors", and "Expand all Errors".

Validation will be performed against the EBA XBRL Taxonomy Validation Set and the Non-XBRL Taxonomy EBA and ECB Validation lists. XBRL Validations are performed first before Non XBRL Taxonomy Validations are invoked.

Once the process of validation is underway, the following screen will be displayed to the submitter with a status of "Processing".

To  Doyle, Mark (Contractor)

The file 'C333009_20160930_LE_Consolidated-Banking.xbrl' has been processed.
 This file has been accepted.

This is an automatically generated message. Please do not reply to this email.

In addition, the following screen will be displayed to the file submitter on ONR indicating that the uploaded file has been accepted

The screenshot shows a web browser window with the URL http://iecwcbid10806/Home/Data/LGEX_CON/files/142115. The page header includes the logo of the Central Bank of Ireland and the text "Banc Ceannais na hÉireann Central Bank of Ireland Eurosystem". The main header displays "C333009: CRDIV Test Firm 333009" and the user name "Mark Doyle". A "Logout" button is visible in the top right corner. The breadcrumb navigation shows "Home > Data > COREP Large Exposures Consolidated (Banking) Files > #142115".

The left sidebar contains the section "File Upload Status" with the text: "This page shows the result of uploading a file. Validation didn't find any errors so the file has been 'accepted' and all its data has been loaded."

The main content area is titled "COREP Large Exposures Consolidated (Banking) File #142115" and contains the following details:

Filename:	C333009_20160930_LE_Consolidated-Banking.xbrl
Status:	Accepted
Return Type:	COREP Large Exposures Consolidated (Banking)
Size:	5169 bytes
Uploaded Date:	01-Jun-2017 (09:41)
Processed Date:	01-Jun-2017 (09:41)

At the bottom of the main content area, there are two buttons: "Back" and "Refresh page".

At the bottom of the page, there are four buttons: "Print current page", "Export Errors", "Collapse all Errors", and "Expand all Errors".

4.3 File Successfully Processed with Warnings

There are a number of XBRL Taxonomy validations that, when breached, produce warning messages instead of errors. These warning messages do not prohibit the file from being accepted however, they do need to be acknowledged.

The warnings are referenced in the e-mail that is sent to the ONR Administrator in the submitting firm. The actual XML containing the errors can be accessed from the File Statuses screen view for this return.

4.3.1 XBRL File Acceptance E-Mail with Warning

4.3.2 Warnings Screen & Error Template

Warnings will be written to an XML error report that can be accessed by pressing the “Warning” button on the File Status Screen for a particular return. This will display an XML report with details of the error messages. The screens relating to both of these are outlined below.

On sign-off of the return, a warning message will be displayed prompting the user to acknowledge the existence of these errors (See section 5.2 below).

4.4 File Processed with Errors

When an individual return is being processed, there is a sequence in which validation checks are executed as follows:

- XBRL Taxonomy Within Return Blocking Rules (i.e. rule breaches that cause the processing of the return instance to cease and an error report generated)
- Non XBRL Within Return Blocking Rules (i.e. rule breaches that cause the processing of the return instance to cease and an error report generated)
- Non XBRL Within Return Non-Blocking Rules (i.e. rule breaches that will not cause the processing of the Return to stop but will need to be acknowledged by the submitter)
- Within Return Variance Checks (Variances that are out of tolerance range and which must be acknowledged by the submitter)

4.4.1 Uploaded File containing XBRL Taxonomy Blocking Errors

When the uploaded file has failed any XBRL Taxonomy Blocking Rules, file processing will stop and an e-mail will be sent to the ONR administrator of the submitting institution to inform them that the file has been processed but rejected (The same process will occur for Non-XBRL Taxonomy blocking rules). A sample of the e-mail that is sent to the Administrator is outlined below.

In addition, the following screen will be displayed to the file submitter on ONR indicating that the uploaded file has been accepted

The rejected file will sit on the ONR system (along with the validation errors) and can be accessed at any time.

4.4.1.1 Loading a Replacement File

A replacement file can be loaded to correct the errors encountered in a file already processed. To load a new file a user must go to the File Upload screen (outlined below) and browse for a new file. An option to delete data from the existing file is also available when re-loading a file.

Load a COREP Consolidated and Leverage Ratio Banking File

☐ Delete existing data and replace with this?

Select a file and click 'Load File' to load it to the server:

CRDIV_20140205_COREP_CONSOLIDATED-BANKIN

4.4.2 Uploaded File containing Non-Blocking Errors

When a file passes the XBRL Taxonomy Blocking and Non-Blocking Validations, then all Non XBRL Taxonomy Validations (Blocking and Non-Blocking) will be executed. If errors are encountered in Non-Blocking Validations, they will need to be acknowledged by the submitter before the return can be finalised. The process involved in viewing and acknowledging Non-Blocking Errors is outlined below.

The screenshot shows a web browser window with the URL http://iecwcbid10806/Home/Data/XBRL_ILB_B/files/142137. The page is titled "C333005: CRDIV Test Firm 333005" and is for user "Ian OFlynn". The breadcrumb trail is "Home > Data > COREP Individual and Leverage Ratio (Banking) Files > #142137".

On the left, a "File Upload Status" sidebar contains the text: "This page shows the result of uploading a file. Validation didn't find any errors so the file has been 'accepted' and all its data has been loaded." Below this are links for "Guidance Material" and "Submit a Request".

The main content area is titled "COREP Individual and Leverage Ratio (Banking) File #142137". It displays the following details:

Filename:	C333005_20161231_COREP_Individual-Banking.xbml
Status:	Accepted
Return Type:	COREP Individual and Leverage Ratio (Banking)
Size:	92419 bytes
Uploaded Date:	01-Jun-2017 (12:13)
Processed Date:	01-Jun-2017 (12:13)

Below the details are "Back" and "Refresh page" buttons. At the bottom of the main area are buttons for "Print current page", "Export Errors", "Collapse all Errors", and "Expand all Errors".

A red callout box with the text "View / Edit Return Option appears as a dropdown when the return name is clicked" has an arrow pointing to the "COREP Individual and Leverage Ratio (Banking) File #142137" title.

The footer contains "© 2013 Central Bank of Ireland | Conditions Of Use | Privacy Statement" and a "Contact Us" link.

To ascertain whether or not Non-Blocking errors exist, the submitter will need to click the View / Edit option that appears as a dropdown option when the user hovers over the return name in the screen above. When this is done, the following screen appears

Note: The user can hover over the highlighted cells to see a shortened version of the error message or can click the “View Errors” button to see the error message in greater detail.

The user has two options at this stage...

- to complete the “Explanations” column in full and Save the form – which will permit the return to be finalised
- to click “Save with Errors” which saves the form for later editing but doesn’t allow the return to be finalised

If the user tries to finalise the return without fully completing the “Explanation” column fully the following error screen will be displayed to the user.

COREP Individual and Leverage Ratio (Banking) , 31-Dec-2016 - Sections

The 'COREP Individual and Leverage Ratio (Banking)' return is divided into sections.

Complete each section that applies to your institution and submit the return to the Central Bank.

Section	Status	Required	Last Updated By	Last Updated	
COREP Individual and Leverage Ratio Banking	Valid	Mandatory	Ilan OFlynn	01-Jun-2017 (12:13)	
Xbrl Non Blocking Rules Report	Invalid	Mandatory	Ilan OFlynn	01-Jun-2017 (12:22)	

[Finalise](#)

[Guidance Material](#)
[Submit a Request](#)

This Return cannot be Finalised yet because not all Templates have been properly completed - some Forms have been saved with errors (i.e. saved even though the data entered was invalid). Each Form that contains errors must be fixed and saved again before the Return can be finalised.

[OK](#)

© 2013 Central Bank of Ireland | [Conditions Of Use](#) | [Privacy Statement](#) [Contact Us](#)

Once the user has filled in comments / explanations for all the error messages and the report is saved, the status of the Non-Blocking Rules report changes from “Invalid” to “Valid” and the process of Finalising the Return can now commence

Once the status changes to “Valid” on the Report, the process of Finalising the Return can now commence.

5. Variance Analysis & Finalising Uploaded Files

Once a return has been successfully uploaded, accepted and processed, all blocking errors addressed and non-blocking errors acknowledged the file is ready to be finalised in advance of being signed-off.

- If the uploaded file is an Individual Return that **is not part** of a Grouped Return, the finalisation and sign-off process can commence
- If the uploaded file **is part** of a Return Group, the file can be finalised. However, the Group of returns that it is part of cannot be finalised and signed-off until all returns within that Group have been finalised

Variance Analysis checks will be performed as part of the finalising routine and all Variances must be explained in advance of the return instance being finalised.

5.1 Variance Analysis Explanation

The Online Reporting System contains a 'Variance Analysis' solution which compares CRD IV returns period on period and requires banking institutions to explain variances that exceed a certain percentage and threshold.

N.B. The returns for the previous reporting period must be signed-off before the returns for the subsequent reporting period and the variance analysis explanations template can be finalised and signed-off.

The following are the COREP and FINREP templates, which are covered by Variance Analysis:

COREP

- C01.00 OWN FUNDS
- C02.00 OWN FUNDS REQUIREMENTS
- C03.00 CAPITAL RATIOS
- C04.00 MEMORANDUM ITEMS

FINREP

- F01.01 Balance Sheet Statement: assets
- F01.02 Balance Sheet Statement: liabilities
- F01.03 Balance Sheet Statement: equity
- F02.00 Statement of Profit or Loss

An explanation is required for the following in relation to all templates listed above aside from F02.00:

- Where there is a positive or negative variance of greater than or equal to 10%, then an explanation must be provided. The 10% variance applies to all of the above templates except for the ratios in C03.00 CAPITAL RATIOS where any variance that exceeds +/- 5% must be explained.

- An explanation is required for any variance from Zero (increase or decrease)
- Where a + /– 10% variance is detected, an explanation is only required where this variance is ALSO greater than/= 1% of Own Funds (COREP) or 1% of Total Assets (FINREP)
- Variances in Percentages will be treated the same as amounts and will follow the same rules as above

F02.00

There is also a requirement to explain Variances in the data points within the FINREP Quarterly Statement of Profit or Loss template (FINREP 2.00).

Variance Analysis must be done on a quarter-by-quarter basis where income data points are expressed in terms of the actual value for that quarter as opposed to a cumulative year to date total for that data point. For an income data point to generate a variance error, **two conditions** need to be satisfied in tandem:

- a) Current / Previous quarter variance as expressed in absolute percentage terms must be greater than or equal 10%
And
- b) The absolute value of the variance expressed as a percentage of FINREP Total Assets (from template F1.01) must be greater than or equal to 0.1%.

In the cases where:

- (a) The value of a data point changes from being a positive value in a previous period to a negative value in the current period or
- (b) Where the value of a data point changes from being a negative value in a previous period to a positive value in the current period

the variance formulae as outlined above must still be used and the answer expressed in absolute percentage terms.

The particular fiscal Year-End date relevant to a submitting institution will be taken into account when executing the variance calculation

5.2 Finalising an Individual Return

The following steps must be taken when Finalising an Individual valid return i.e. it has passed all Blocking / Non-Blocking rules.

To access a return to be Finalised, choose the return to be updated and click the View / Edit Returns option from within this return view

The screenshot shows a web browser window displaying the 'Return Type Options' page for the 'COREP Individual and Leverage Ratio (Banking)'. The page header includes the Central Bank of Ireland logo and the user 'John Staunton'. The main content area has three buttons: 'View / Edit Returns' (with a folder icon), 'View Uploaded Files' (with a document icon), and 'Load a File' (with a plus icon). A red box with the text 'Select to "Finalise" return on ONR' has an arrow pointing to the 'View / Edit Returns' button. The left sidebar contains instructions on how to use the system and links for 'Guidance Material' and 'Submit a Request'. The footer shows the copyright notice '© 2010 Central Bank of Ireland' and a 'Contact Us' link.

Enter explanations here

The Previous and Current values for the data point as well as the variance in actual and percentage terms are displayed. The user must enter an explanation for each of the variances listed. If this is not done the following screen – highlighting where no variance explanation has been entered – is displayed.

Windows Internet Explorer window showing the 'Edit Form' page for 'C999001: CRDIV Test Firm 1' (John Staunton). The page displays a 'Variance Analysis Report' table with columns: Table Code, Column Code, Row Code, Previous Value, Current Value, Actual Change, Variance %, and Explanation. The table contains 8 rows of data. The 'Explanation' column for the last three rows (rows 6, 7, and 8) is empty, and these rows are highlighted in red. A red arrow points to the empty 'Explanation' cell in row 6, with a callout box stating: 'Cells without explanations are highlighted'.

Edit Form Data

There were errors on the form which prevented it from being saved. Hover over the highlighted cells to see a shortened version of the error messages or click on View Errors to view all errors, with detailed error messages. Alternatively click on 'Save With Errors' to save the form as a draft version, and you can fix the errors at a later time.

Table Code	Column Code	Row Code	Previous Value	Current Value	Actual Change	Variance %	Explanation
C 01.00	010	010	17000.0000	59000.0000	42000.0000	247.0588	
C 01.00	010	015	11000.0000	9000.0000	-2000.0000	-18.1818	
C 01.00	010	020	8000.0000	-11000.0000	-19000.0000	-237.5000	
C 01.00	010	030	16000.0000	6000.0000	-10000.0000	-62.5000	
C 01.00	010	060	9000.0000	5000.0000	-4000.0000	-44.4444	
C 01.00	010	070	0.0000	-6000.0000	-6000.0000	-100.0000	
C 01.00	010	080	0.0000	-6000.0000	-6000.0000	-100.0000	a
C 01.00	010	130	-6000.0000	0.0000	6000.0000	100.0000	a

Cells without explanations are highlighted

If the user saves the Variance Analysis report without completing all the fields, they will be allowed to do so, however they will not be allowed to finalise the return. Once the Variance Analysis report is fully completed, the user will be allowed to save it without errors. The user can then proceed to finalise this individual file.

Sign-Off Return

The return has been successfully signed-off

You have successfully 'signed-off' the XBRL ITS Quarterly Return Group return for 31-Dec-2016 – it has now been submitted to the Central Bank.

This return was not submitted by the 25-Apr-2017 deadline – the failure to complete the submission in a timely fashion has been recorded.

This Return is 'locked', and can't be changed until it is unlocked for revision by the Central Bank .

Use the back button to navigate to the previous page.

[Back](#)

As outlined in section 4.3.2 above, if warning rules have been breached these need to be acknowledged by the user who is signing off the individual return. This is done by checking a box on the sign-off screen that is presented to the user.

The screenshot shows a web browser window with the URL http://ecwcbitor03/Home/Data/XBRL_BCB_B/Returns/31-Dec-2016/_signoff. The page header includes the Central Bank of Ireland logo and the text 'C21174: Allied Irish Banks plc' and 'Bhushan Sivakumar'. The breadcrumb navigation shows 'Home > Data > SBP Consolidated (Banking) > Returns > 31-Dec-2016 > SignOff Return'. The main content area is titled 'Sign-Off Return' and contains the following text:

The Return is ready to be signed-off.

The SBP Consolidated (Banking) return for 31-Dec-2016 must be 'signed-off' to complete the process of submitting data to the Central Bank.
This return is being revised for the first time – it was originally due for submission by 20-Apr-2017.
After you sign-off the return, it will be 'locked' once again, and you will no longer be able to make changes.

Declaration

This return has been accepted with warnings.

To signify your acceptance of this statement, tick the box below:

☐

I declare that the information which has been entered for the SBP Consolidated (Banking) return for 31-Dec-2016 is complete and correct to the best of my knowledge.

Once you have verified the correctness of the data to your satisfaction, click the 'Sign-Off Return' button below to sign-off the return and submit the data to the Central Bank. This will complete the process of submitting the return (for this period).

At the bottom, there are 'Cancel' and 'Sign-off Return' buttons. The footer includes '© 2010 Central Bank of Ireland | Conditions Of Use | Privacy Statement' and 'Contact Us'.

5.3 Finalising a Grouped Return

When a return is part of an XBRL return group, a number of key points must be noted:

- The Individual return must firstly be finalised
- Then the Return Group that the Return is part of must be Finalised
- The Finalising of the Return Group must be done in advance of the Return Group being signed off
- The Individual Return is never signed off – just the Grouped Return

When a user logs into the ONR in the Institution context, they will be presented with the view of the returns that they are required to upload. Some of these will be Individual Returns and others will be part of a Return Group.

When all Individual Returns within a Group have a status of Finalised, the Group can now be Finalised by clicking on the “Finalise Group” button.

It is at this point that Cross Return validation rules are run (i.e. validations between data-points on two or more different returns within a Return Group which may prevent the Group from being Finalised and require one or more individual files to be resubmitted). If Cross-Return blocking validation errors are encountered, the Group Status will change to “Invalid” and the Finaliser can see what errors exist by clicking the “Show Errors” button on the screen.

Note: Any user who has permission to Finalise an Individual Return will have permission to Finalise the Group Return of which they are part.

XBRL ITS Quarterly Return Group failed cross return validation

The XBRL ITS Quarterly Return Group has been Finalised and contains errors.
You have submitted some of the returns contained in this group.
For further details on the invalid records, login to the Online Reporting website.

Details of the blocking errors are visible in ONR on the following screen

The screenshot shows a web browser window with the URL <http://iecwcbid10806/Home/Data/XBRL-GRP-2/31-Dec-2016#Errors>. The page header includes the Central Bank of Ireland logo and the text "Banc Ceannais na hÉireann Central Bank of Ireland Eurosystem". The user is logged in as "lan OFlynn" under the firm "C333006: CRDIV Test Firm 333006". The breadcrumb trail is "Home > Data > XBRL ITS Quarterly Return Group > 31-Dec-2016". The main heading is "XBRL ITS Quarterly Return Group , 31-Dec-2016 - Returns". Below this, a section titled "Blocking Errors" contains a table with two rows of error details. A "Back" button is located to the right of the table. At the bottom left, there are links for "Guidance Material" and "Submit a Request". The footer contains copyright information for 2013 and links for "Conditions Of Use" and "Privacy Statement".

Code	Message
XBR-RUL-0003	Formula Error : v2852_m : (F 32.04.a, r020,c010) <= sum((F 01.02, c010, (r020, r062, r150))). Rule check: 12501 <= 9000. Template: F 32.04.a Row: 020 Column: 010
XBR-RUL-0003	Formula Error : v2853_m : if (F 00.01, r010,c010) = [eba_ASx2] then (F 32.04.a, r030,c010) <= sum((F 10.00, c020, (r300-320))) + sum((F 11.01, c020, (r510-530))). Rule check: 12501 <= 9000. Template: F 32.04.a Row: 030 Column: 010

The submitting entity will be required to address these errors and resubmit the relevant returns. When this is done, the individual resubmitted returns will need to be Finalised as well as the Group Return following the same process as outlined above.

In addition to checks for cross-return blocking errors, validation is also performed on cross-returns non-blocking errors (i.e. validations between data points on different returns within a Returns Group, which need to be acknowledged on Finalising the Group but do not require return resubmission). Details of these errors are displayed to the firm on the following screen.

Sign Off Return Group

Sign-Off Return

The Return is ready to be signed-off.

The XBRL ITS Quarterly Consolidated Group return for 30-Jun-2021 must be 'signed-off' to complete the process of submitting data to the Central Bank

This return was due to be submitted by 31-Dec-2021 – IT IS NOW OVERDUE.

After you sign-off the return, it will be 'locked' and you will no longer be able to make changes (unless the return is subsequently unlocked by the Central Bank for revision).

Declaration

One or more of the returns covered by this group signoff have been accepted with one or more warnings. It is your firm's responsibility to ensure that these warnings are investigated and that the accuracy of the relevant returns is not affected by the issues raised. Details are available at return level in your submitted file(s). {CRLF}{CRLF}{RETURNTYPEWITHREVISIONNUMBER}An email to this effect has also been sent to you.

To signify your acceptance of this statement, tick the box below:

☒

Once you have verified the correctness of the data to your satisfaction, click the 'Sign-Off Return' button below to sign-off the return and submit the data to the Central Bank. This will complete the process of submitting the return (for this period).

I declare that the information which has been entered for the XBRL ITS Quarterly Consolidated Group return for 30-Jun-2021 is complete and correct to the best of my knowledge.

Cancel Sign-off Return

[Guidance Material](#)
[Submit a Request](#)

The user signing off must tick the Declaration check box confirming that the Returns information is complete and correct before the “Sign-Off Return” button is enabled. Once this is done, a sign-off confirmation screen is displayed to them.
